Subject Index, 1992
Vol. 42, Nos. 1–6

A

Acknowledgment to Reviewers, 1991–1992, 366

Acquired immunodeficiency syndrome (AIDS)-associated malignancy (*See also* Human immunodeficiency virus [HIV])
- Expanding challenge of, 69–73
- Malignant neoplasms and, 74–95

Acute lymphoblastic leukemia, childhood cancer, long-term survivors of, 276–277

Acute lymphocytic leukemia, survival rates, 37

Acute myeloid leukemia, survival rates, 37

Adenocarcinoma, tumors of unknown origin, 99–103

African Americans
- Cancer in, 5–6 (Guest Editorial)
- Statistics, 7–17

Age level
- Cigarette smoking, African Americans, 14
- Colonoscopy complications, in elderly, 359
- Early cancer detection/prevention, American Cancer Society, Guidelines for the Cancer-Related Checkup, 44
- Mortality, 25, 26, 27
- Mortality, lung cancer, African Americans, 8–9

AIDS (*See* Acquired immunodeficiency syndrome [AIDS])

Alpha-interferon, ovarian cancer, biologic therapy, 341–342

American Cancer Society
- Clinical Awards, A6, 64
- Colorectal cancer, revision in recommendations for early detection of, 296–299
- Great American Smokeout, 282
- Guidelines for the Cancer-Related Checkup, 44
- Guidelines on Screening for Breast Cancer: An Overview, 177–180
- National Conference on Cancer Prevention and Early Detection, 255
- National Conference on Gynecologic Cancers, 18, 126
- National Conference on Support and Self-Help Groups, 192
- Recommendations for the Early Detection of Cancer in Asymptomatic People, Summary, 45

Announcements
- American Cancer Society Great American Smokeout, 282
- American Cancer Society National Conference on Cancer Prevention and Early Detection, 255
- American Cancer Society National Conference on Gynecologic Cancers, 18, 126
- American Cancer Society National Conference on Support and Self- Help Groups, 192
- Annual Review of Patient Care Reports: Findings from the National Cancer Data Base, 256
- International Union Against Cancer Fellowships, 372
- Reach to Recovery Conference, 46

Anorectal carcinoma, human immunodeficiency virus (HIV), malignant neoplasms associated with, 89–90

Autologous bone marrow transplantation/ chemotherapy trials, ovarian cancer chemotherapy, 340–341

Autopsy, in oncology (Opinion), 47–56

Axillary freckling, neurofibromatoses, 243

Axillary lymph node metastases, tumors of unknown origin, adenocarcinoma, 101–102

B

Barium enema, colonoscopy and, 352–354

B cell lymphoma, human immunodeficiency virus (HIV), malignant neoplasms associated with, 82–84

Biliary tract cancer
- Incidence, 30
- Mortality, 31

Biologic therapy, ovarian cancer, 341–343

Biopsy
- Colonoscopy, 1087
- Ewing's sarcoma, 304

Blood cancer
Incidence, 30
Mortality, 31

Bone cancer
Ewing's sarcoma, 300–320
Incidence, 30
Mortality, 31
Skeletal metastases, tumors of unknown origin, adenocarcinoma, 102
Survival rates, 37

Bowel perforation, colonoscopy complications, 359–360

Brain cancer
Incidence, 30
Mortality, 25, 31
Mortality, African Americans, 12, 13
Survival rates, 37, 38

Breast cancer (female)
American Cancer Society Guidelines on Screening for Breast Cancer: An Overview, 177–180
Correction, role of chemotherapy in management of, 43
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 25, 28, 31, 32, 35
Mortality, African Americans, 7, 11, 13
Screening project, design and implementation of community-based, 163–176
Staging, African Americans, 15
Staging, diagnosis, 23
Standards for breast-conservation treatment, 134–162
Standards for breast-conservation treatment, landmark report, 133 (Editorial)
Surgical management of, regional differences, 39–43
Survival rates, 22, 38

Breast cancer (male)
Incidence, 30
Mortality, 31

Breast-conservation treatment, 134–162
Follow-up care, 155–156
Future research, 156–157
Irradiation techniques, 146–155
Literature review, 134–138
Patient selection and evaluation, 138–143
Technical aspects of surgical treatment, 143–146

Bronchial cancer
Staging, African Americans, 15
Survival rates, 38

C

Café-au-lait spots, neurofibromatoses, 242–243

Carboplatin, ovarian cancer chemotherapy, 332–334

Carcinoma, poorly differentiated carcinoma, tumors of unknown origin, 106–113

Cardiac complications, childhood cancer, long-term survivors of, 269–270, 271

Central nervous system cancer
childhood leukemia, neuropsychological and psychosocial effects of treatment, 283–295
Incidence, 30
Lymphoma (PCL), human immunodeficiency virus (HIV), malignant neoplasms associated with, 84–85
Mortality, 25, 31
Survival rates, 37, 38

Cervical cancer
Incidence, 30
Mortality, 31
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Cervical dysplasia, human immunodeficiency virus (HIV), malignant neoplasms associated with, 89–90

Chemotherapy
Autopsy in oncology (Opinion), 49
Childhood cancer, late adverse effects of treatment among patients cured of, 261–262 (Guest Editorial)
Childhood cancer, leukemia, neuropsychological and psychosocial effects of treatment, 283–295
Childhood cancer, long-term survivors of, evaluation and identification of sequelae of treatment, 263–282
Ewing's sarcoma, 314–317
Ovarian cancer, 325–326 (Guest Editorial), 332–341
Tumors of unknown origin, 102, 103, 107–109

Childhood cancer
Bone cancer, Ewing's sarcoma, 300–320
Late adverse effects of treatment among patients cured of, 261–262 (Guest Editorial)
Leiomyosarcoma, human immunodeficiency virus (HIV),

malignant neoplasms associated with, 90
Long-term survivors, 263–282
Long-term survivors, cardiac complications, 269–270
Long-term survivors, dental complications, 275
Long-term survivors, endocrine complications, 263–269
Long-term survivors, eye complications, 274–275
Long-term survivors, gastrointestinal/liver complications, 273–274
Long-term survivors, neuropsychological complications, 269
Long-term survivors, pulmonary complications, 270–272
Long-term survivors, recommendations, 277
Long-term survivors, renal/urologic complications, 272–273
Long-term survivors, second cancers, 275–277
Long-term survivors of, overview, 263
Mortality, 36
Survival rates, 37

Childhood leukemia, neuropsychological and psychosocial effects of treatment, 283–295
central nervous system prophylaxis, 283–287
central nervous system relapse, increased effects due to, 289
chemotherapy, effects of systemic, 287–289
overview, 283
psychosocial effects, 289–292

Cigarette smoking
Mortality, African Americans, 8–9
Prevalence, African Americans, 14

Classics in Oncology
Spectrophotometer: New Instrument for Ultrarapid Cell Analysis, 60–63
Spectrophotometer: New Instrument for Ultrarapid Cell Analysis, Introduction, 57–59

Clinical trials
Autopsy in oncology (Opinion), 51
Breast-conservation treatment, 134–135, 138

Cognition, childhood leukemia, neuropsychological and psychosocial effects of treatment, 283–295

Colonic bleeding, unexplained, colonoscopy indications, 354

Colonoscopy, 350–365
Assistants in, 361–362
Barium enema and, 352–354
Cleaning and disinfecting, 362
Complications of, 359–360
Contraindications for, 358–359
Endoscopic therapy, 357–358
Future uses, 362–363
Historical overview, 350
Indications for, 354–357
Indications for, abnormal barium enema, 354
Indications for, infectious colitis, 355
Indications for, inflammatory bowel disease, 354–355
Indications for, perioperative endoscopy, 355–356
Indications for, surveillance, 356
Indications for, unexplained chronic diarrhea, 356–357
Indications for, unexplained colonic bleeding, 354
Instrumentation, 350–351
Medication for, 360–361
Polypectomy technique, 361
Techniques of, 361
Training in use of, 351–352

Colorectal cancer
American Cancer Society, revision in recommendations for early detection of, 296–299
Colonoscopy, 355, 356, 358
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 25, 28, 29, 31, 32, 34
Mortality, African Americans, 7, 10, 11, 12, 13
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Connective tissue cancer
Incidence, 30
Mortality, 25, 31

Correction
Breast cancer (female), role of chemotherapy in management of, 43
Cancer statistics, 1992, 127, 128
Cancer statistics for African Americans, author's correction, 125
Human immunodeficiency virus (HIV), malignant neoplasms associated with, 74–95

Crohn's disease, colonoscopy, 355

D

Dental complications, childhood cancer, long-term survivors of, 274–275

Dermatofibrosarcoma protuberans, 116–125
- Clinical findings in, 117–118
- Course and treatment of, 121–123
- Differential diagnosis of, 119–121
- Gross findings in, 118
- Histogenesis of, 123
- Incidence of, 116–117
- Microscopic findings in, 118–119

Diagnosis (*See also* Early cancer detection/prevention)
- Autopsy in oncology (Opinion), 49, 52
- Breast cancer (female), staging, 23
- Cervical cancer, staging, 23
- Colorectal cancer, staging, 23
- Dermatofibrosarcoma protuberans, differential diagnosis, 119–121
- Ewing's sarcoma, 302–304
- Ovarian cancer, immunodiagnosis, 343
- Prostate cancer, diagnosis and work- up, 223–224
- Prostate cancer, screening and treatment, American Cancer Society's commitment, 197 (Editorial)
- Prostate cancer, screening for, current trends and future implications, 198–211
- Race differences, staging, local stage diagnosis, 15

Diarrhea, unexplained chronic, colonoscopy, indications, 356–357

Digitial rectal examination, prostate cancer, screening for, 199–200

E

Early cancer detection/prevention
- American Cancer Society, colorectal cancer, revision in recommendations for early detection of, 296–299
- American Cancer Society Guidelines for the Cancer-Related Checkup, 44
- American Cancer Society Guidelines on Screening for Breast Cancer: An Overview, 177–180

- Standards for Breast-Conservation Treatment: A Landmark Report, 133

Elderly, colonoscopy complications, 359 (*See also* Age level)

Electron microscopy, tumors of unknown origin, 98

Endocrine cancer
- Incidence, 30
- Mortality, 25, 31
- Survival rates, 38

Endocrine complications, childhood cancer, long-term survivors of, 263–269

Endoscopic therapy, colonoscopy, 357–358 (*See also* Colonoscopy)

Epidemiology
- Breast cancer (female), screening project, design and implementation of, 163
- Breast cancer (female), statewide detection and awareness program, using a population-based cancer reporting system to evaluate, 367–371
- Dermatofibrosarcoma protuberans, 116–117
- Ewing's sarcoma, 300
- Ovarian cancer, screening and treatment, 327

Epstein-Barr virus (EBV), acquired immunodeficiency syndrome (AIDS), HIV-associated malignancies, 70, 71, 82–84

Esophageal cancer
- Incidence, 30
- Incidence, African Americans, 9
- Mortality, 25, 29, 31

Mortality, African Americans, 7, 8, 10, 12, 13
Staging, diagnosis, 23
Survival rates, 38

Etoposide, Ewing's sarcoma, 317

Ewing's sarcoma, 300–320
Biopsy, 304
Clinical features, 300–302
Diagnostic evaluation, 302–304
Overview of, 300
Pathology and biology, atypical, 309–310
Pathology and biology, typical, 305–309
Treatment, 311–318

Eye
Childhood cancer, long-term survivors of, 274–275
Neurofibromatoses, 244–245

Eye cancer
Incidence, 30
Mortality, 31

F

Freckling
Neurofibromatoses, 243

G

Gamma-interferon, ovarian cancer, biologic therapy, 342

Gastrointestinal complications, childhood cancer, long-term survivors of, 273–274

Genetics
Neurofibromatoses, 248–249, 251–252
Ovarian cancer, screening, 328–329
Tumors of unknown origin, 98–99

Geographical differences
Breast cancer (female), surgical management of, 39–43
Statistics, 32, 33, 34, 35, 128
Statistics (African Americans), 9, 14

Glioma, optic nerve and visual pathway gliomas, neurofibromatoses, 245–246

Gonadal dysfunction, childhood cancer, long-term survivors of, 265–267

Granulocytic leukemia
Incidence, 30
Mortality, 31

Grief assuagement, autopsy in oncology (Opinion), 53

Growth
Childhood cancer, long-term survivors of, 263–269
Neurofibromatoses, 246–247

H

Heart, cardiac complications, childhood cancer, long-term survivors of, 269–270, 271

Hemorrhage, colonoscopy complications, 360

Hexamethylmelamine, ovarian cancer chemotherapy, 336–337

Hodgkin's disease
Childhood cancer, long-term survivors of, 276
Human immunodeficiency virus (HIV), malignant neoplasms associated with, 85–86, 87, 88, 89
Incidence, 30
Mortality, 25, 31
Mortality, African Americans, 13
Survival rates, 37, 38

Hormonal therapy, ovarian cancer, 341

Human immunodeficiency virus (HIV)-associated malignancy, 74–95
anorectal carcinoma, 89–90
central nervous system lymphoma, 84–85
cervical dysplasia, 89–90
expanding challenge of AIDS, 69–73
Hodgkin's disease, 85–86, 87, 88, 89
Kaposi's sarcoma, 74–77
leiomyosrcoma (smooth muscle tumor), 90
lymphomas, 82–84
non-Hodgkin's lymphoma, 77–82
T-cell lymphoma, 86, 89

I

Ifosfamide
Ewing's sarcoma, 317
Ovarian cancer chemotherapy, 336

Immunodiagnosis, ovarian cancer, 343

Immunoperoxidase tumor staining, tumors of unknown origin, 97–98

Impotency, prostatectomy (radical), procedure described, 220–221

Infectious colitis, colonoscopy indications, 355

Inflammatory bowel disease, colonoscopy, 354–355

Irradiation (*See* Radiation therapy)

K

Kaposi's sarcoma (KS), acquired immunodeficiency syndrome (AIDS), HIV-associated malignancies, 69–73, 74–77

Kidney, childhood cancer complications, long-term survivors of, 272–273

Kidney cancer
Incidence, 30
Mortality, 25, 31
Mortality, African Americans, 8, 12, 13
Survival rates, 38

L

Laparotomy, ovarian cancer, screening, 330

Laryngeal cancer
Incidence, 30
Incidence, African Americans, 9
Mortality, 31
Mortality, African Americans, 8, 12, 13
Staging, African Americans, 15
Survival rates, 38

Leiomyosarcoma, human immunodeficiency virus (HIV), malignant neoplasms associated with, 90

Leukemia
Acute lymphoblastic leukemia, childhood cancer, long-term survivors of, 276–277
Childhood cancer, late adverse effects of treatment among patients cured of, 261–262 (Guest Editorial)
Incidence, 21, 33, 128
Incidence, African Americans, 9
Mortality, 21, 25, 28, 29, 31, 32, 35
Mortality, African Americans, 13
Survival rates, 37, 38

Lip cancer
Incidence, 30
Mortality, 31

Liver, childhood cancer complications, long-term survivors of, 274

Liver cancer
Incidence, 30
Mortality, 28, 29, 31
Staging, diagnosis, 23
Survival rates, 22, 38

Lung, pulmonary complications, childhood cancer, long-term survivors of, 270–272

Lung cancer
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 25, 28, 29, 31, 32, 35
Mortality, African Americans, 7, 8, 10, 11, 12, 13
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Lymph cancer
Incidence, 30
Mortality, 31

Lymph node metastases
axillary, tumors of unknown origin, adenocarcinoma, 101–102
prostate cancer, evaluation and radiotherapeutic management of, 224–227

Lymphocytic leukemia
Incidence, 30
Mortality, 31

Lymphoma
B cell lymphoma, human immunodeficiency virus (HIV), malignant neoplasms associated with, 82–84
Central nervous system lymphoma (PCL), human immunodeficiency virus (HIV), malignant neoplasms associated with, 84–85

Lymphoma (non-Hodgkin's)
Acquired immunodeficiency syndrome (AIDS), HIV-associated malignancies, 69–73
Human immunodeficiency virus (HIV), malignant neoplasms associated with, 77–84
Incidence, 21, 30
Incidence, African Americans, 9
Mortality, 21, 25, 31
Mortality, African Americans, 12, 13
Survival rates, 37, 38

M

Macrocephaly, neurofibromatoses, 247

Magnetic resonance imaging
(*See* Radiology)

Mammography (*See also* Radiology; Ultrasonography)
American Cancer Society Guidelines on Screening for Breast Cancer: An Overview, 177–180
Breast-conservation treatment, 141, 155–156, 161–162
Screening project, design and implementation of community-based, 163–176
Statewide Breast Cancer Detection and Awareness program, use in, 368

Mastectomy
Breast cancer (female), surgical management of, regional differences, 39–43
Standards for breast-conservation treatment, 134–162
Standards for breast-conservation treatment, landmark report, 133 (Editorial)

Medical education
Autopsy in oncology (Opinion), 52–53
Colonoscopy, training in use of, 1075–1077

Melanoma of skin
Incidence, 21, 30, 33, 128
Mortality, 21, 31, 32
Staging, diagnosis, 23
Survival rates, 22, 38

Metastatic disease
Ovarian cancer, screening, 330
Prostate cancer, lymph node involvement, evaluation and radiotherapeutic management of, 224–227
Tumors of unknown origin, 96–115

Mouth cancer
Incidence, 30
Mortality, 31

Multiple myeloma
Incidence, 30
Mortality, 31
Mortality, African Americans, 13
Survival rates, 38

N

National Cancer Data Base, Annual Review of Patient Care Reports, 256

National Cancer Data Base (NCDB), breast cancer, surgical management, 39

National Health Interview Survey (NHIS), African Americans, 14

Neoplasm, poorly differentiated neoplasm, tumors of unknown origin, 96–99

Neuroblastoma, survival rates, 37

Neurofibromatoses, 241–254
Axillary freckling, 243
Café-au-lait spots, 242–243
Cancers, 247–248
Diagnostic criteria, 242
Genetics and, 248–249, 251–252
Growth and, 246–247
History of, 241–242
Macrocephaly, 247
Neurofibroma types, 243–244
Neurologic complications, 247
NF-2, 249–252
Ophthalmologic manifestations, 244–245
Optic nerve and visual pathway gliomas, 245–246
Orthopedic manifestations, 246
Overview, 241–241
Vascular disease, 248

Neurologic complications, neurofibromatoses, 247

Neuropsychological complications
Childhood cancer, long-term survivors of, 269
Childhood leukemia, neuropsychological and psychosocial effects of treatment, 283–295

Non-Hodgkin's lymphoma (*See* Lymphoma (non-Hodgkin's))

O

Oncology, autopsy in (Opinion), 47–56

Opinion
The Autopsy in Oncology, 47–56

Optic nerve and visual pathway gliomas
Neurofibromatoses, 245–246

Oral cavity cancer
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 31, 32, 34
Mortality, African Americans, 8, 12, 13
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Oral contraceptive, ovarian cancer prevention, 326 (Guest Editorial)

Orthopedic manifestations, neurofibromatoses, 246

Ovarian cancer
Biologic therapy, 341–343
Challenge of ovarian cancer, the 325–326 (Guest Editorial)
Chemotherapy, 332, 334–341
Chemotherapy, autologous bone marrow transplantation/chemotherapy trials, 340–341
Chemotherapy, carboplatin, 332, 334
Chemotherapy, dose intensity, 338
Chemotherapy, drug resistance, 338–340
Chemotherapy, hexamethylmelamine, 336–337
Chemotherapy, ifosfamide, 336
Chemotherapy, intraperitoneal, 340
Chemotherapy, new drugs, sulofenur, 341
Chemotherapy, podophyllotoxins, 338
Chemotherapy, taxol, 334–336
Hormonal therapy, 341
Immunodiagnosis, 343
Incidence, 21, 30, 327
Incidence, African Americans, 9
Mortality, 21, 25, 28, 31
Mortality, African Americans, 13
Prevention, 331–332
Screening and treatment, 327–349
Screening and treatment, genetic screening, 328–329
Screening and treatment, overview, 327
Screening and treatment, serum tumor marker screening, 331
Screening and treatment, ultrasonographic screening, 329–331
Staging, diagnosis, 23
Survival rates, 22, 38, 327

P

Pancreatic cancer
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 25, 28, 29, 31, 32
Mortality, African Americans, 7, 8, 10, 11, 12, 13
Survival rates, 38

Partial mastectomy, breast cancer, surgical management of, regional differences, 39–43

Perioperative endoscopy, colonoscopy indications, 355–356

Peritoneal carcinomatosis, tumors of unknown origin, adenocarcinoma, 100–101

Pharyngeal cancer
Incidence, 30
Mortality, 31
Staging, diagnosis, 23
Survival rates, 22, 38

Podophyllotoxins, ovarian cancer chemotherapy, 338

Polypectomy, technique of, colonoscopy, 360–361

Poorly differentiated carcinoma, tumors of unknown origin, 106–113

Poorly differentiated neoplasm, tumors of unknown origin, 96–99

Prevention (*See* Early cancer detection/prevention)

Primary central nervous system lymphoma (PCL), human immunodeficiency virus (HIV), malignant neoplasms associated with, 84–85

Prostate cancer
Evaluation and radiotherapeutic management of, 223–240
diagnosis and work-up, 223–224
lymph node involvement, 224–227
overview, 223
primary evaluation, 227–229
staging, 229
transurethral resection effect, 224
treatment, 229–238
Incidence, 21, 30, 33, 128
Incidence, African Americans, 7, 9
Mortality, 21, 25, 29, 31, 32, 34
Mortality, African Americans, 7, 10, 12
Prostatectomy, radical, role of, in treatment, 212–222
Screening, current trends and future implications, 198–211
digitial rectal examination, 199–200
overview, 198–199
prostate-specific antigen, 202–209
ultrasonography and, 200–202
Screening and treatment, American Cancer Society's commitment, 197 (Editorial)
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Prostatectomy (radical), 212–222
indications for, 213–215
overview of, 212–213
procedure described, 215–221
sequelae of, 236, 237

Prostate-specific antigen, prostate cancer, screening for, 202–209

Protocol studies, autopsy in oncology (Opinion), 51

Psychosocial factors
Autopsy in oncology (Opinion), 53–54
Breast-conservation treatment, 161
Childhood leukemia, neuropsychological and psychosocial effects of treatment, 283–295
Prostatectomy (radical), procedure described, 220–221

Pulmonary complications, childhood cancer, long-term survivors of, 270–272

Q

Quality assurance, autopsy in oncology (Opinion), 48–49

Questionable methods of cancer management, prevalence of, 181–191

R

Race differences
Staging, local stage diagnosis, 15
Survival rates, 22, 38

Radiation therapy
Breast cancer (female), surgical management of, regional differences, 39–43
Breast-conservation treatment, 146–155, 161
Childhood cancer, late adverse effects of treatment among patients cured of, 261–262 (Guest Editorial)
Childhood cancer, leukemia, neuropsychological and psychosocial effects of treatment, 283–295
Childhood cancer, long-term survivors of, evaluation and identification of sequelae of treatment, 263–282
Ewing's sarcoma, 311–318
Prostate cancer, evaluation and radiotherapeutic management of, 223–240

Radical prostatectomy (*See* Prostatectomy (radical))

Radiology (*See also* Mammography; Ultrasonography)
Barium enema, colonoscopy and, 352–354
Prostate cancer, lymph node involvement, evaluation and radiotherapeutic management of, 226–227

Rectal cancer (*See* Colorectal cancer)

Renal complications, childhood cancer, long-term survivors of, 272–273

Renal pelvis cancer, survival rates, 38

S

Screening
African Americans, 14, 16
Breast cancer, American Cancer Society Guidelines on Screening for Breast Cancer: An Overview, 177–180
Breast cancer, design and implementation of community-based, 163–176
Breast cancer, detection and awareness, using a population-based cancer reporting system to evauate, 367–371
Ovarian cancer, screening and treatment, 327–349
Prostate cancer, current trends and future implications, 198–211
Prostate cancer, digital rectal examination, 199–200
Prostate cancer, treatment and, American Cancer Society's commitment, 197 (Editorial)

Second cancer, childhood cancer, long- term survivors of, 275–277

Serum tumor marker, ovarian cancer screening, 331

Sex differences
Incidence, 30
Mortality, 25, 26, 27, 28, 29, 34, 35
Mortality, African Americans, 7, 8–9

Sexual function
Childhood cancer, long-term survivors of, 265–267
Prostatectomy (radical), procedure described, 220–221

Skeletal metastases, tumors of unknown origin, adenocarcinoma, 102

Skin cancer
Dermatofibrosarcoma protuberans, 116–125
Mortality, 25

Small intestine cancer
Incidence, 30
Mortality, 31

Smooth muscle tumor, human immunodeficiency virus (HIV), malignant neoplasms associated with, 90

Socioeconomic factors, statistics (African Americans), 14, 15

Spectrophotometer, new instrument for ultrarapid cell analysis (Classic), 57–63

Squamous carcinoma, tumors of unknown origin, 103–106

Staging
- Breast cancer (female), surgical management of, regional differences, 39–43
- Ovarian cancer, 325–326 (Guest Editorial)
- Prostate cancer, evaluation and radiotherapeutic management of, 229
- Race differences, local stage diagnosis, 15

Standards for breast-conservation treatment, landmark report, 133 (Editorial)

Statistics, 19–38
- Autopsy in oncology (Opinion), 51–52
- Incidence, 19, 21, 30, 33, 128
- Mortality, 19–20, 21, 24, 25, 26, 27, 28, 29, 31, 32, 34, 35, 36
- Staging, 23
- Survival rates, 20, 22, 37, 38
- Wordwide, 20, 34, 35

Statistics (African Americans), 7-17
- Childhood cancers, 16
- Geographical differences, 9, 14
- Incidence, 7
- Mortality, 7–9, 10, 11, 12, 13
- Overview, 7
- Screening, 14, 16
- Socioeconomic factors, 14, 15
- Survival rates, 14

Stomach cancer
- Incidence, 21, 30
- Incidence, African Americans, 7, 9
- Mortality, 21, 28, 29, 31, 35
- Mortality, African Americans, 12, 13
- Staging, diagnosis, 23
- Survival rates, 22, 38

Sulofenur, ovarian cancer chemotherapy, 341

Surgical management
- Bowel resection, colonoscopy, 1087–1088
- Breast cancer (female), regional differences, 39–43
- Breast cancer (female), standards for breast-conservation treatment, 134–162
- Breast cancer (female), standards for breast-conservation treatment, landmark report, 133 (Editorial)
- Colonoscopy indications, perioperative endoscopy, 355–356
- Prostate cancer, prostatectomy, radical, 212–222

Surveillance, colonoscopy indications, 334–336

T

Taxol, ovarian cancer chemotherapy, 334–336

T-cell lymphoma, human immunodeficiency virus (HIV), malignant neoplasms associated with, 86, 89

Testicular cancer
- Incidence, 30
- Mortality, 31
- Survival rates, 38

Thermal burns, colonoscopy complications, 360

Thyroid cancer
- Incidence, 30
- Mortality, 31
- Survival rates, 38

Thyroid dysfunction, childhood cancer, long-term survivors of, 268–269, 271, 276

Tongue cancer
- Incidence, 30
- Mortality, 31

Transurethral resection, prostate cancer, effects of, 224

Tumors of unknown origin, 96–115
- Adenocarcinoma, 99–103
- Poorly differentiated carcinoma, 106–113
- Poorly differentiated neoplasm, 96–99
- Squamous carcinoma, 103–106

U

Ultrarapid cell analysis, spectrophotometer, new instrument for (Classic), 57–63

Ultrasonography (*See also* Mammography; Radiology)
- Breast-conservation treatment, 155–156
- Colonoscopy and, future uses, 362

Ovarian cancer, screening, 327, 329–331
Prostate cancer, screening for, 200–202

Unknown origin (*See* Tumors of unknown origin)

Urinary bladder cancer
Incidence, 30
Mortality, 29, 31
Mortality, African Americans, 8, 12, 13
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

Urinary cancer
Incidence, 21, 30
Incidence, African Americans, 9
Mortality, 21, 31

Urinary continence, prostatectomy (radical), 218, 220

Urologic complications, childhood cancer, long-term survivors of, 272–273

Uterine cancer
Incidence, 21, 30, 33, 128
Incidence, African Americans, 9
Mortality, 21, 25, 28, 31, 32, 35
Mortality, African Americans, 7, 8, 11, 13
Staging, African Americans, 15
Staging, diagnosis, 23
Survival rates, 22, 38

V

Vascular disease, neurofibromatoses, 248

Visual pathway gliomas, neurofibromatoses, 245–246

W

Wilms' tumor, survival rates, 37
